Cross Sectional Shape:

Round

Inside Diameter:

0.500 inches all conductors

End Application:

Kit collector

Conductor Form:

Braid, tubular single conductor

Product Name:

Wire braid

Strand Awg Size Per Conductor:

36 all conductors

Material:

Copper core tube

Material Specification:

Astm b3555 assn standard single material response core tube

Surface Treatment:

Nickel core tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
