**Cross Sectional Shape:**

Round

**End Application:**

1440-01-087-9844

**Conductor Form:**

Stranded single conductor

**Special Features:**

Solid single strand; temper: soft or drawn; tin coating

**Material:**

Copper 1st position serving

**Material Specification:**

Astm b49 assn standard single material response 1st position serving

**Specification Data:**

58536 a-a-59551 manufacturers specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A077a0
