Cross Sectional Shape:
Round
End Application:
1440-01-087-9844
Conductor Form:
Stranded single conductor
Special Features:
Solid single strand; temper: soft or drawn; tin coating
Material:
Copper 1st position serving
Material Specification:
Astm b49 assn standard single material response 1st position serving
Specification Data:
58536 a-a-59551 manufacturers specification
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A077a0
