Cross Sectional Shape:

Round

Outside Diameter:

4.6 millimeters single conductor

Conductor Form:

Solid, tubular single conductor

Product Name:

Silicone high voltage cable

Round Conductor Size:

22.0 awg single conductor

Conductor Cross-sectional Shape:

Tubular solid single conductor

Voltage Rating:

10.0 ac rated working voltage single conductor

Material:

Plastic silicone core wrap

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
