Cross Sectional Shape:

Round

Inside Diameter:

0.781 inches single conductor

Conductor Form:

Braid, tubular single conductor

Product Name:

Braid wire, nickel coated

Material:

Copper core tube

Material Specification:

Astmb355 assn standard single material response core tube

Surface Treatment:

Nickel core tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
