Cross Sectional Shape:

Round

End Application:

A/e 37t-2 (v)

Conductor Form:

Solid single conductor

Product Name:

Wire, 12 agw, cond 1

Round Conductor Size:

12 square millimeters single conductor

Special Features:

Wiring assembly gage and disconnect panel turboshaft engine test system; length is eight feet

Material:

Tin core wrap

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
