Cross Sectional Shape:

Round

End Application:

C-5 aircraft

Conductor Form:

Braid, tubular all conductors

Product Name:

Wiring, 26 gauge, green

Strand Awg Size Per Conductor:

38 all conductors

Conductor Cross-sectional Shape:

Tubular braid all conductors

Special Features:

Temperature rating-200 degrees celcius, voltage rating-600 volts

Color:

Green core sleeve

Material:

Copper alloy core wrap cable

Precious Material:

Silver

Surface Treatment:

Silver core wrap cable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
