**Special Features:**

Wire specification mil-w-5086/1-20-9, white, 35.000 in.Lg, 20 awg, 19 no.32awg strands, tinned conductors, insulation from bareconductors out polyvinyl chloride primary insulation, clear nylonjacket, first branch starts 7.000 in.From one end, 2nd branch starts2.000 in.From other end, one end has connector ms3116e8-4s, other endhas ms3116p8-4sw connector, first branch has terminal lug ms20659-102, 2nd branch has connector ms27142-3, cable has total 4 conductors

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A077a0
