Body Cross-sectional Shape:

Angular

Overall Length:

19.890 inches

Cross-sectional Height:

0.440 inches

Cross-sectional Width:

0.500 inches

Mounting Configuration:

Four 0.182 in. Diameter holes evenly spaced

Construction:

Solid

Material:

Copper

Precious Material And Location:

Surface silver

Precious Material And Weight:

0.040 silver grains, troy

Precious Material:

Silver

Surface Treatment:

Silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
