Body Cross-sectional Shape:

Flat

Cross-sectional Height:

0.045 inches

Cross-sectional Width:

2.750 inches

Mounting Configuration:

Six 0.500 in. Diameter holes equally spaced

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, 1/2h federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
