Body Cross-sectional Shape:

Rectangular

Overall Length:

2.937 inches

Cross-sectional Height:

0.063 inches

Cross-sectional Width:

0.500 inches

End Application:

Type no. An/tpn-18

Mounting Configuration:

One 0.223 in. Diameter hole and one 0.223 in. By 0.437 in. Slot 2.312 in. C to c

Construction:

Solid

Material:

Aluminum

Surface Treatment:

Oxide film

Surface Treatment Specification:

Mil-c-5541 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-c-5541 spec.
