Body Cross-sectional Shape:

Rectangular

Overall Length:

1.620 inches

Cross-sectional Height:

0.900 inches

Cross-sectional Width:

0.750 inches

Mounting Configuration:

One 0.440 plus 0.020 diameter hole

Construction:

Solid

Material:

Copper

Material Specification:

Qq-b-825, type 1, class 1 or class 3 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
