Body Cross-sectional Shape:

U-shaped

Overall Length:

0.875 inches

Cross-sectional Height:

0.032 inches

Cross-sectional Width:

0.688 inches

Mounting Configuration:

Two 0.152 in. Diameter holes 0.438 in. C to c

Construction:

Solid

Material:

Copper alloy

Material Specification:

Qq-b-611, comp c federal specification single material response

Surface Treatment:

Nickel

Surface Treatment Specification:

Qq-n-290, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
