Body Cross-sectional Shape:

Rectangular

Overall Length:

11.724 inches

Cross-sectional Height:

Between 0.029 inches and 0.035 inches

Cross-sectional Width:

0.250 inches

Mounting Configuration:

20.147 in. Diameter holes equally spaced 0.218 in. From ea end

Construction:

Solid

Surface Treatment:

Silver and gold

Surface Treatment Specification:

Qq-s-365, grade b federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
