**Body Cross-sectional Shape:**

Rectangular

**Overall Length:**

2.350 inches

**Cross-sectional Height:**

0.125 inches

**Cross-sectional Width:**

1.000 inches

**Mounting Configuration:**

Two 0.312 in. Diameter holes 1.350 in. C to c

**Construction:**

Solid

**Material:**

Copper

**Material Specification:**

Qq-c-502, 1/2h federal specification single material response

**Surface Treatment:**

Nickel

**Surface Treatment Specification:**

Qq-n-290 federal specification single treatment response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A537p0
