Overall Length:

9.156 inches

Overall Diameter:

6.500 inches

Mounting Configuration:

Eight equally spaced on eight in center

End Bell Mounting Configuration:

Four no. 10-32 diameter holes on commutator end

Features Provided:

Alternating current winding supports

Material:

Aluminum

Surface Treatment:

Enamel

Fsc Application Data:

Generator ac

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537t0
