End Application:

Logistic support system 410a, c5a

Special Features:

Cbl assembly provides electrical interface between 115v ac, 400cps, 3 phase power supply and nlg emergency extension electric motor to facilitate starting torque tests; elec insul resistance 5 megohms min at 500vdc; cei withstand dielectric strength test of 1800vac, 60cps for 5 sec, or 1500vac, 60cps for 60 sec, between insulated conductors and ground

Fsc Application Data:

Wire and cable assembly, elec

Reference Number Differentiating Characteristics:

Differentiated by source control drawing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
