Body Cross-sectional Shape:

Rectangular

Overall Length:

0.750 inches

Cross-sectional Height:

0.020 inches

Cross-sectional Width:

0.125 inches

End Application:

J-85 aircraft engine

Construction:

Solid

Material:

Copper alloy

Material Specification:

Sae 70, 1/2 hard assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
