### **Body Cross-sectional Shape:**

Flat

# **Overall Length:**

1.172 inches

# **Cross-sectional Height:**

0.063 inches

### **Cross-sectional Width:**

0.380 inches

### Mounting Configuration:

Two 0.182 in. Approx diameter mtg holes spaced 0.812 in. Apart commencing 0.180 in. From either end

## **Construction:**

Solid

#### Material:

Copper

#### **Material Specification:**

Qq-c-576, annealed federal specification single material response

### Surface Treatment:

Cadmium

# Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

### Shelf Life:

N/a

#### Unit Of Measure:

--

### Demilitarization:

No

#### Fiig:

A537p0
