Body Cross-sectional Shape:

Flat

Overall Length:

2.796 inches

Cross-sectional Height:

0.063 inches

Cross-sectional Width:

0.380 inches

Mounting Configuration:

Four 0.182 in. Approx diameter mtg holes spaced 0.812 in. Apart commencing 0.180 in. From either end

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, annealed federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
