Body Cross-sectional Shape:

Rectangular

Overall Length:

4.000 inches

Cross-sectional Height:

0.005 inches

Cross-sectional Width:

0.750 inches

Mounting Configuration:

Two holes located on a centerline 3.625 in. Apart, one hole 0.196 in. Dia, one hole 0.170 in. Dia

Construction:

Solid

Material:

Copper alloy 510

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 1, class 2 federal specification single treatment response

Type/model Designation:

An-aas-35-v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
