Body Cross-sectional Shape:

Rectangular

Overall Length:

7.430 inches

Cross-sectional Height:

0.150 inches

Cross-sectional Width:

Between 0.435 inches and 0.455 inches

Mounting Configuration:

25 electrical connectors irregularly spaced

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, 1/2h federal specification single material response

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
