Body Cross-sectional Shape:

Rectangular

Overall Length:

10.100 inches

Cross-sectional Height:

0.312 inches

Cross-sectional Width:

0.812 inches

End Application:

Air data simulator drawer

Mounting Configuration:

99 electrical connectors equally spaced 0.100 in. Co to c

Construction:

Solid

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
