Body Cross-sectional Shape:

Rectangular

Overall Length:

4.300 inches

Cross-sectional Height:

0.020 inches

Cross-sectional Width:

0.200 inches

End Application:

Aircraft air data simulator

Mounting Configuration:

Four terminals spaced 1.000 in. Apart

Construction:

Solid

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
