Body Cross-sectional Shape:

Rectangular

Overall Length:

2.200 inches

Cross-sectional Height:

0.125 inches

Cross-sectional Width:

0.750 inches

Mounting Configuration:

Two 0.218 in. Diameter mtg holes spaced 1.450 in. Center to center

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-502 federal specification single material response

Surface Treatment:

Nickel

Surface Treatment Specification:

Qq-n-290, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
