#### **Body Cross-sectional Shape:**

Flat

# **Overall Length:**

2.140 inches

# **Cross-sectional Height:**

0.125 inches

### **Cross-sectional Width:**

0.750 inches

#### Mounting Configuration:

Two 0.218 in. Diameter mtg holes spaced 1.390 in. Center to center

### **Construction:**

Solid

#### Material:

Copper

### **Material Specification:**

Qq-c-502 federal specification single material response

# Surface Treatment:

Nickel

## Surface Treatment Specification:

Qq-n-290, class 2 federal specification single treatment response

### Shelf Life:

N/a

#### Unit Of Measure:

---

#### Demilitarization:

No

#### Fiig:

A537p0
