Body Cross-sectional Shape:

Flat

Overall Length:

Between 2.810 inches and 2.825 inches

Cross-sectional Height:

0.045 inches

Cross-sectional Width:

0.600 inches

End Application:

Radar control test set

Mounting Configuration:

Three 0.266 holes 1.960 in. C to c

Construction:

Solid

Material:

Copper

Surface Treatment:

Solder

Surface Treatment Specification:

Qq-s-571 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
