Body Cross-sectional Shape:

Flat

Overall Length:

Between 3.995 inches and 4.005 inches

Cross-sectional Height:

0.007 inches

Cross-sectional Width:

0.380 inches

End Application:

F-15a acft

Mounting Configuration:

Two 0.156 diameter holes 3.620 in. C to c

Construction:

Solid

Material:

Copper alloy

Material Specification:

Qq-c-533, alloy 172, temper 1/2h federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 1, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
