Body Cross-sectional Shape:

Flat

Overall Length:

4.969 inches

Cross-sectional Height:

0.031 inches

Cross-sectional Width:

0.875 inches

Mounting Configuration:

One edge slotted to form 12 legs w/1 0.180 in. Diameter hole on ea leg spaced 0.443 in. Apart

Construction:

Solid

Special Features:

Special requirements for nuclear propulsion plant equipment contained in individual repair parts ordering data instrumentation control no.

Mce500a, lineno. 0024

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
