**Body Cross-sectional Shape:**

Flat

**Overall Length:**

4.969 inches

**Cross-sectional Height:**

0.031 inches

**Cross-sectional Width:**

0.875 inches

**Mounting Configuration:**

One edge slotted to form 12 legs w/1 0.180 in. Diameter hole on ea leg spaced 0.443 in. Apart

**Construction:**

Solid

**Special Features:**

Special requirements for nuclear propulsion plant equipment contained in individual repair parts ordering data instrumentation control no.

Mce500a, lineno. 0024

**Material:**

Copper alloy

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A537p0
