Body Cross-sectional Shape:

Rectangular

Overall Length:

9.000 inches

Cross-sectional Height:

0.250 inches

Cross-sectional Width:

1.000 inches

End Application:

2350-01-087-1095

Mounting Configuration:

Two holes 0.406 inches which are round

Construction:

Solid

Material:

Copper

Material Specification:

Qq-b-825, type 1, class 1 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
