Body Cross-sectional Shape:

Irregular

Overall Length:

1.335 inches

Cross-sectional Height:

0.062 inches

Cross-sectional Width:

0.600 inches

Mounting Configuration:

Three holes evenly spaced; 2 ea 0.209 in. Min and 0.219 in. Maximum diameter and 1 ea 0.140 in. Dia

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-502, 1/2h federal specification single material response

Surface Treatment:

Nickel

Surface Treatment Specification:

Qq-n-290 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
