Body Cross-sectional Shape:

Flat

Overall Length:

6.860 inches

Cross-sectional Height:

0.093 inches

Cross-sectional Width:

0.432 inches

End Application:

2330-01-054-9771 low bed semitrailer

Mounting Configuration:

Two 0.281 in. Diameter holes 0.600 in. C to c

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-502 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
