Body Cross-sectional Shape:

Rectangular

Overall Length:

1.820 inches

Cross-sectional Height:

0.032 inches

Cross-sectional Width:

0.500 inches

Mounting Configuration:

Two 0.134 in. To 0.139 in. Diameter holes 1.437 in. C to c

Construction:

Solid

Criticality Code Justification:

Feat

Special Features:

"a" tabulation marked tb17, "b" tabulation marked 97942-526r234h01

Material:

Copper

Material Specification:

Qq-c-576 federal specification single material response

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
