Body Cross-sectional Shape:

Flat

Overall Length:

9.324 inches

Cross-sectional Height:

0.050 inches

Cross-sectional Width:

0.440 inches

Mounting Configuration:

11 0.172 in. W by 0.344 in. Lg slots equally spaced and two 0.166 in. Diameter holes 7.920 in. C to c

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, annealed federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
