Body Cross-sectional Shape:

Rectangular

Overall Length:

2.375 inches

Cross-sectional Height:

0.625 inches

Cross-sectional Width:

0.125 inches

Mounting Configuration:

Two holes 0.160 dia, spaced 1.863in. Apart; one hole 0.193 dia, spaced 1.437 in. From edge

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-502 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
