Body Cross-sectional Shape:

Flat

Overall Length:

1.880 inches

Cross-sectional Height:

0.020 inches

Cross-sectional Width:

Between 0.079 inches and 0.084 inches

Mounting Configuration:

Six 0.043 in. Diameter holes in three groups of two evenly spaced

Construction:

Solid

Material:

Copper

Material Specification:

Qq-b-825, type 1, class 1 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
