Body Cross-sectional Shape:

Flat

Overall Length:

2.300 inches

Cross-sectional Height:

0.020 inches

Cross-sectional Width:

0.090 inches

Mounting Configuration:

Six 0.045 in. Diameter holes in groups of two evenly spaced and two 0.045 in. Diameter end holes, one ea end

Construction:

Solid

Material:

Copper

Material Specification:

Qq-b-825, type 1, class 1 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
