**Body Cross-sectional Shape:**

Flat

**Overall Length:**

2.750 inches

**Cross-sectional Height:**

Between 0.250 inches and 0.500 inches

**Cross-sectional Width:**

1.000 inches

**Mounting Configuration:**

Two slots, one on length dim. 0.500 in. From c of slot to end and one slot centered on width dim.

**Construction:**

Solid

**Material:**

Copper

**Material Specification:**

Qq-c-502, h federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A537p0
