Body Cross-sectional Shape:

Flat

Overall Length:

2.750 inches

Cross-sectional Height:

Between 0.250 inches and 0.500 inches

Cross-sectional Width:

1.000 inches

Mounting Configuration:

Two slots, one on length dim. 0.500 in. From c of slot to end and one slot centered on width dim.

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-502, h federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
