Body Cross-sectional Shape:

Flat

Overall Length:

4.500 inches

Cross-sectional Height:

0.040 inches

Cross-sectional Width:

1.000 inches

Mounting Configuration:

Two slots, one ea end 0.620 in. From center of slot to end

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, temper hot rolled federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 1 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
