Body Cross-sectional Shape:

Flat

Overall Length:

4.000 inches

Cross-sectional Height:

0.010 inches

Cross-sectional Width:

0.380 inches

Mounting Configuration:

Two 0.156 in. Diameter holes 3.620 in. C to c

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576 federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 1, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
