Body Cross-sectional Shape:

Flat

Overall Length:

10.500 inches

Cross-sectional Height:

0.031 inches

Cross-sectional Width:

0.650 inches

Mounting Configuration:

10 0.062 in. Diameter holes unevenly spaced; four 0.156 in. Diameter holes evenly spaced and one 0.076 in. Diameter hole 1.000 in. From one end

Construction:

Solid

Material:

Copper alloy

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
