Body Cross-sectional Shape:

U-shaped

Overall Length:

2.110 inches

Cross-sectional Height:

0.120 inches

Cross-sectional Width:

0.060 inches

Mounting Configuration:

19 0.060 in. Diameter holes 0.100 in. C to c

Construction:

Solid

Material:

Copper alloy

Material Specification:

Qq-c-533 federal specification single material response

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
