Body Cross-sectional Shape:

Flat

Overall Length:

6.000 inches

Cross-sectional Width:

3.435 inches

Mounting Configuration:

52 pins in layers evenly spaced

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
