Body Cross-sectional Shape:

Flat

Overall Length:

44.670 inches

Cross-sectional Height:

0.630 inches

Cross-sectional Width:

2.100 inches

Mounting Configuration:

23 0.137 in. Diameter holes in six layers evenly spaced and two end holes 43.500 in. C to c

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, 1/2h federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
