Body Cross-sectional Shape:

Irregular

Overall Length:

1.985 inches

Cross-sectional Height:

0.043 inches

Cross-sectional Width:

0.400 inches

Mounting Configuration:

Two 0.166 in. Diameter holes 1.125 in. C to c on straight section of bar

Construction:

Solid

Special Features:

125 microinch all surfaces

Material:

Copper

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
