Body Cross-sectional Shape:

Flat

Overall Length:

2.380 inches

Cross-sectional Height:

0.043 inches

Cross-sectional Width:

0.500 inches

Mounting Configuration:

Four holes unevenly spaced

Construction:

Solid

Special Features:

125 microinch all surfaces

Material:

Copper

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
