Body Cross-sectional Shape:

Irregular

Overall Length:

5.670 inches

Cross-sectional Height:

0.025 inches

Cross-sectional Width:

0.075 inches

Mounting Configuration:

Two 0.065 in. Maximum diameter hole located on right end tab

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-502 federal specification single material response

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
