**Body Cross-sectional Shape:**

Cylindrical

**Overall Length:**

4.500 inches

**End Application:**

Antenna coupler

**Cross-sectional Diameter:**

0.250 inches

**Construction:**

Hollow

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-225/6 federal specification single material response

**Surface Treatment:**

Silver

**Surface Treatment Specification:**

Qq-s-365, grade b federal specification single treatment response

**Fsc Application Data:**

Wire and cable elec

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A537p0
